Dear Bill:

Well, my friend, it's always a joy to work with you, and our "Party Line" live program Friday morning was no exception! Your deep commitment and strong compassion for helping others through the blood program was again evident, and as we said on the air, you have been instrumental in saving literally thousands of lives by providing educational opportunities, motivational speakers and other support for blood programs in your area. You are a role model for other media, and we believe one of the reasons you are so successful is because of the sincerity you bring to the issue. Of course, that deep sense of concern coupled with your technical competence and professional expertise really make a winning combination to save lives.

With patients in the 200 healthcare facilities we serve using about 2,000 units of blood and blood components every day, the need is huge. Each time we make blood safer for patients by implementing new laboratory tests designed to prevent viruses and other problems from getting to patients, new donor eligibility criteria to protect both the donor and the recipient, the blood supply is made safer but the eligible pool of donors is substantially reduced. Your commitment to public education and your other support of the blood program are instrumental in having blood available for patients when they need it. You and everyone at KSHN can be justifiably proud of this significant contribution to your community, and we are certainly proud of you!

Thank you again for your continued support, my friend, and we look forward to many more years of working together.

Best personal regards,

Dear Bill Buchanan,

I wanted to express my appreciation for your help in getting Theobert Jannise Jr. arrested on a warrant for aggravated robbery at the Hyltons Grocery Store.

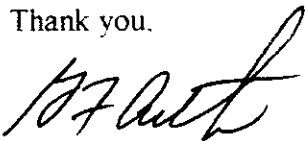

At 3:30 a.m. on Sunday morning Theobert Jannise Jr. showed up at the dispatch window at the Liberty County Sheriff's Department wanting to turn himself in. He was taken into custody and arraigned by Judge Pruitt.

Detective Jim Brown questioned the subject, he would not make a statement about the case but said the reason he turned himself in was because he was all over the TV, Radio, internet, and news papers.

I believe him seeing himself and hearing his name constantly on LDTV, the radio, on i-dineout.com and the news papers was the reason he turned himself in.

This is a model example of Law Enforcement and the media working together to bring criminals to justice, and provide better law enforcement service for Liberty County.

Thank you.

Public awareness and education is a crucial component of any hurricane preparedness plan. The media has an important role to play in this type of public awareness effort. Please accept my sincere thanks for your willingness to air the public service announcements as part of the 1994 Hurricane Preparedness Campaign.

Although we all hope this season's hurricanes will avoid inflicting any damage to the Texas coast, we must be prepared for the possibility that a major hurricane could strike. That is why it is so important that you and your station are willing to aid us in this effort to inform and educate Texans about hurricane preparedness.

Again, thank you for airing these spots that will help keep Texans well-informed and prepared in the event we experience a hurricane.

The Park Development Committee and many Dayton citizens would like to thank you for making Radio Day such an outstanding success. That one day event raised over fourteen thousand dollars for the new city park. Your generosity of air time for the day is greatly appreciated and you know we could not have accomplished this without the help of individuals, such as yourself who were so willing to give of their time, energy, talents, and equipment.

We appreciate your help all during the day, also for your staff helping out. Our sincere gratitude of the unselfish donation of your Saturday to help make the day a success. You are to be commended on the fine job you are doing, you represent our community well. Saturday May 23, 1992, was a wonderful memorable day in Dayton.

RE: KSHN RADIO

I wish to thank you for the wonderful support you continually provide the Dayton Independent School District. KSHN Radio goes above and beyond the call of duty to keep our parents, staff, and community informed and involved. We appreciate your positive approach to news reporting. Your genuine interest in the wellbeing of others always seems to "shine" through no matter what the story. You have the rare ability to walk that line of information sharing and community caring that few individuals and even fewer news agencies seem to master. In the education business, there are issues that arise from time to time that demand patience and time to resolve. Your consistent approach to reporting the news leads to an informed and educated public that has the knowledge base to make informed decisions even in the heat of controversial happenings.

Thanks for all that you do!!

Sincerely,
